## About I AM Family Ministries

I AM Family Ministries is a holistic program that was started as a response to the overwhelming number of orphaned children and vulnerable women in Uganda whose lives have been ravaged by war, poverty, and disease. Our dream is to see a new generation of Africans rising up to become agents of change, overcoming the challenges of poverty, illiteracy and disease. Our faith calls us to provide education, family support, and training for those who need it most so they may become self-sufficient leaders who can transform their nation.

## About Uganda

Uganda is one of the poorest countries in the world. It is still recovering from 31 years of wars that has left tens of thousands of children orphaned and without any support for their future. Only 20% of the children are able to attend school beyond the first few years. Ugandan communities have been severely affected by the HIV and AIDS crisis, which has now left more orphans than the entire population of New Hampshire. More than three out of every 10 adults is infected by the disease. In addition, a scarcity of physicians makes healthcare expensive. Through your sponsorship, you can help transform the child's future by providing for education and healthcare needs.
